Dear Company,

I am excited to apply for a position at your esteemed organization. My name is Amir Poole, and I am a graduate of Indiana University of Pennsylvania, where I earned a Bachelor of Science in Computer Science and Software Engineering, along with a minor in Cybersecurity. Throughout my studies, I have developed a strong skill set in programming and technology, and I believe I would be a valuable addition to your team.

During my time in college, I engaged in both group and solo programming projects using languages such as Python and Java. I have also gained proficiency in C++, JavaScript, HTML, Bash, and C#, and I am eager to continue expanding my knowledge. Additionally, I was an active member of the Cybersecurity Club in the fall of 2022, which further fueled my passion for this field.

In addition to my academic background, I have experience as a restaurant manager, where I developed strong leadership and teamwork skills. Currently, I work for Keystone Cleaning, where I continue to enhance my ability to collaborate effectively and adapt to various challenges.

Thank you for considering my application. I look forward to the possibility of discussing how I can contribute to your company and grow within your team. I am excited about the opportunity to learn more about your organization and its goals.

Sincerely ,

Amir Poole
