412-728-0868 | Pooleamir4@gmail.com | Pittsburgh, Pa

Summary

Born in Pittsburgh and am currently 21 years old. Over the past four years of studying Computer Science (Cosc), I have undertaken diverse projects that demonstrate my proficiency. These include developing skills in CSS for styling, creating basic HTML websites, designing interactive HTML and Java web games, as well as creating automated systems and learning how to save data through admins. Additionally, I have acquired expertise in configuring virtual machines, showcasing practical knowledge of infrastructure management within the realm of computer science
